

The Winesceptre - "Kick the Bucket"

Catching on with fine dining establishments and discerning wine drinkers across the country, the Winesceptre makes a wonderful wedding, birthday, retirement, or special gift for that special someone on your list. "Call it evolution and revolution....the Winesceptre is not only aesthetically beautiful, it is efficient and very easy to use. No more heavy ice buckets or lost labels. The modern way to serve a pre-chilled bottle of wine at the perfect temperature has rapidly become part of the French serving tradition and will make it's way worldwide." - *Brigitte Leloup, Master Sommelier*
